Portfolio Review Framework

SEBI Registered Research Analyst: Partha Shah INH000017815
Research-led process. Not an RIA unless separately registered.

Five-step research process
1. Understand goals and constraints
2. Review portfolio and holdings
3. Assess risk and asset allocation
4. Research-led recommendations
5. Review, implement and monitor

Framework pillars
Risk profiling and goal mapping
Asset allocation review
Holdings and overlap analysis
Risk-adjusted performance
Tax, cost and liquidity
Written review and discipline

What we review
Asset allocation, fund overlap, sector exposure, rolling returns, CAGR and XIRR, Sharpe and Sortino, drawdown, tax impact, exit load, expense ratio, insurance adequacy, emergency fund, goal alignment.
